Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/532,690	Applicant(s) HODGE ET AL.	
	Examiner Kevin E. Weddington	Art Unit 1614	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The finality of the Office action dated September 29, 2008 has been removed, so that a new rejection can be made.

Claims 2-8 are presented for examination.

Applicants' amendment and response filed October 2, 2008 have been received and entered.

Accordingly, the rejections made under provisional obviousness-type double patenting over claims 1-44 and 46-66 of copending Application No. 11/535,779; and over claims 1-66 of copending Application No. 11/841,508 as set forth in the previous Office action dated September 29, 2008 at pages 2-3 are hereby withdrawn because of applicants' remarks.

Allowable Subject Matter

Claims 6-8 are allowable.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 2-4 are rejected under 35 U.S.C. 102(a) as being anticipated by WO 02/59077 of PTO-1449, hereby known as Kori et al.

Kori et al. teach one of the applicants' active agents, Benzenepropanoic acid, .beta.-oxo-4-(phenylmethoxy)-, ethyl ester or Ethyl 3-(4-benxyloxyphenyl)-3-oxopropanoate, is useful for the treatment of hyperlipidemia. Since the active agent is

Art Unit: 1614

used to treat hyperlipidemia, then the administration of the active agent to humans in an oral form is anticipated (see In re Spada, 911 F. 2d 705, 709 15 USPQ2d 1655, 1658 (Fed. Cir. 1990)).

Claims 2-4 are not allowed.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to

Art Unit: 1614

consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claim 5 is rejected under 35 U.S.C. 103(a) as being unpatentable over WO 02/59077 of PTO-1449, hereby known as Kori et al.

Kori et al. were discussed above supra for the use of active agent, Ethyl 3-(4-benxyloxyphenyl)-3-oxopropanoate, for the treatment of hyperlipidemia.

The instant invention differs from the cited reference in that the cited reference does not teach the applicants' preferred dosage range set forth in claim 5. However, those of ordinary skill in the art would have been optimized effective dosages by good medical practice and the clinical condition of the individual patient. The specific dose may be calculated according to body weight, body surface area or organ size.

Claim 5 is not allowed.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin E. Weddington whose telephone number is (571)272-0587. The examiner can normally be reached on 12:30 pm-9:00 pm.
